

I do not enjoy having telemarketers calling me day and night. I believe we have freedom of speech and also have freedom from being harrassed by telemarketers. It is my choice to NOT be called by anyone other than I wish to call me. I would prefer that telemarketers call only those who have no opinion on this matter. I also believe the nationwide DO NOT CALL LIST should not give telemarketers so many ways of getting around people on the list. I still get more calls than I like being a Wisconsin resident. With the national list being even more open for telemarketers I will be forced to take more measures to keep my time at home peaceful. I feel it is unfair if I am forced to spend money on devices to stop unwanted calls because of loop holes in the national do not call list.

Please keep the Wisconsin DO NOT CALL LIST as is or even harder for telemarketers to get around it. And make the national DO NOT CALL LIST as stringent as Wisconsin's or more so.

Thank you,

Dawn Meyer
